

Home Health Care

North  Hill

HOME HEALTH CARE

North Hill provides specialized, in-residence services to seniors throughout Needham and the surrounding communities. We have set ourselves apart from other agencies, by being able to provide the same level of services, resources and staff of large hospital-based programs. We are small enough to offer personal, individualized care to suit the unique needs of each client. All in-home services are managed by a skilled clinician who works in partnership with your physician and specialists. This one-on-one relationship with an experienced provider ensures all your needs are met. With a focus on delivering in-home care that is aligned with our agency's values —customer satisfaction, excellence and respect, North Hill Home Health Care offers an exceptional option.

SKILLED NURSING

Because of our size and focus, we have the unique ability to pair you with a primary clinician who will work closely with you and your physician to help you achieve—and maintain—optimal health. With extensive backgrounds in senior home care, our experienced Registered Nurses will work with your physician to provide the services you need at home:

- Coordinated recovery from an acute illness
- Disease Management
- Post-surgical recovery
- Pain and medication assessment
- Wound and ostomy care
- Intermittent personal care (administered by Home Health Aides)

THERAPY

North Hill Home Health Care, Inc. provides a skilled therapist with extensive experience in treating a variety of medical conditions in a home setting. Whether your order for rehabilitation originates from a doctor's office or after a discharge from a hospital or skilled nursing facility, our therapists will create a personalized plan of care to optimize your recovery.

Physical Therapy: Our Physical Therapists work with your physician to design a program that can comfortably and conveniently be performed in your home to help you achieve the greatest possible level of physical function.

Occupational Therapy: Should you require adaptations to perform the activities necessary to maintain independence in your home, our Occupational Therapists will use assistive devices, exercise and other treatments to optimize your safety so you may resume or maintain your daily routines.

Speech Therapy: If your speech or other functions have been impaired, our Speech Therapists will help you regain control and improve the quality of your speech. This will help with understanding language, and with swallowing problems, as well as articulation, voice disorders, fluency, cognitive and communication impairment.

MEDICAL SOCIAL WORK

Our medical Social Worker is an expert in meeting the needs of seniors in the home care setting. Working collaboratively with your clinical team, the Social Worker's goal is to help you, and your family adjust to changes in your health and living choices. He or she can also direct you to appropriate resources and services and provide assistance in long term care planning

A non-profit, Medicare-Certified Home Health Agency providing senior care in the comfort of your home. To learn more please contact North Hill Home Health Care, Inc. - 781.433.6308

CLIENT SATISFACTION

Our experience with Home Health has been excellent in every aspect. It has provided complete and perfect support, meeting all of our needs in a readily accessible, well-coordinated manner. It is administered with efficiency, consideration, friendliness, and kindness.

~Toby and Judy H.

My husband, William has been receiving physical therapy services from North Hill for the past two months. We are beyond impressed with the entire staff!!! My husband has progressed by leaps and bounds with the help of the impressive therapists and services that North Hill provides. We will be forever grateful to the entire staff, who are not only knowledgeable, but also kind and personable!!! Thank you!!!
